#### Services

Argor-Heraeus is one of the world's largest precious metals refiners.

At our headquarters in Mendrisio, Switzerland and our international branches, we:

Refine gold, silver, platinum, and palladium;

Transform finished and semi-finished products for banks and watch and jewellery industries;

Provide our customers information, financial services, and accessories regarding international precious metals markets;

We are the ideal partner for comprehensive solutions linked to the refining and handling of physical precious metals.

We are the golden link for our customer's metal along the entire value chain
