

# Responsibilities of the Artisanal and Small-Scale Mining Organization

We ensure traceability within our Fairmined system of production

We comply with all the requirements of standard Fairmined

## Level 1

System of production of the ASMO

ASMO promotes the improvement of the mining practices through training and organizational policies

We focus on the occupational health and safety, and responsible management of toxic substances most important risks.

We promote decent work by not allowing child labor and promoting equal opportunities for our employees.

## Level 2

All the ASMO's mining area

We collaborate with local authorities to promote good practice and encourage the development of our community.

## Level 3

The mining community
